EMPIRE CITY LINE FOR PANAMA.—The splendid steamship Sarah Sands, 1500 tons burthen, W. C. Thompson, commander, will leave for Panama, touching at Acapulco, on or about the 1st of May next. This ship is unsurpassed in her cabins for convenience and comfort, and every arrangement has been made on the most liberal scale. The steerage has been fitted with regard to the comfort of passengers. A separate table will also be spread for them. The Sarah Sands will be followed, on or about the 15th May, by the steamship New Orleans, of 1200 tons. The above ships will run in connection with the Atlantic boats, Crescent City and Empire City. Through tickets from san Francisco to New York, by way of Panama and Chagres. Rates of fare: San Francisco to Panama—First cabin $300; second cabin $150. Chagres to New York—After saloons $125; forward saloons $100; lower cabin $90. Passage and freight, through to New York, or to the intermediate ports, can be secured by application to Everett & co, Agents, iron store foot sacramento st. lvii tf

ASPINWALL'S Steam Transportation Line.—For Sacramento City, Yuba City, Marysville, Stockton and Tuolumne City.—Steamer Hartford leaves Clark's Point every *Monday* and *Friday*, at 6 o'clock, p. m., for Sacramento City, Yuba and Marysville.

Steamer El Dorado leaves Clark's Point every *Wednesday morning*, at 9 o'clock, for Sacramento City, Yuba City and Marysville.

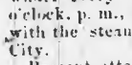
Fare to Sacramento City.....	$20 00
Thro' to Yuba and Marysville.	35 00
Freight to Sacramento City.	
Dry Barrels, each.....	4 00
Wet " each.....	6 00
Heavy goods, per hundred lbs.	2 00
Measurement goods, per foot..	75
Lumber, per thousand feet....	50 00

The steamer Sacramento, of the above line, runs in connection with the Hartford from Sacramento City, and with the El Dorado from Yuba City to Marysville.

For Stockton and Tuolumne City—The steamer Captain Sutter leaves central wharf every *Tuesday* and *Friday*, at 4 o'clock, p. m., for Stockton, and connects with the steamer Georgina for Tuolumne City.

Prompt attention will be paid to all orders for freight left at the office, or on board the storeship Alcione.

James Blair, Agent.
cxxxi cA office, head central wharf.



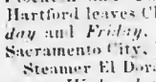
FOR TRINITY MINES and Upper Sacramento—The powerful, light draught steamer, Jack Hays, Captain Dan. Moseby, having returned from a successful trip to the Upper Sacramento, will continue on this route until further notice. To those bound to the Trinity Mines, as well as those trading on the Upper Sacramento, this boat offers great facilities: supplying means of communication which will reduce more than one-half, the hardships of a trip to Trinity; the want of which has long and seriously been felt.

The Jack Hays will touch at all intermediate landings, and until further notice the following rates will be charged:

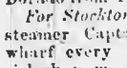
To Knight's Ranch, fright 4 cents, passage $12, to Sterling & Taylor's, Colusa and Butteville, freight, 12½ cents, passage $30; to Bute city, freight 15 cents, passage $32; to Placer city, Munroe's Ranch, Moon's Ranch, Hall's Ranch, Lawson's Ranch, or Benton city, Toom's Ranch, Tehama, and all places above, freight 20 cts, passage $50.

The Jack Hays will start on her next trip on Saturday next, May 25th. For freight or passage apply to

Ogden & Haynes,
cxlix j clay street wharf.



DAY BOAT FOR Sacramento City.—The new and splendid steamer Gold Hunter, Capt. Couillard, will leave her berth at Clark's point, on Mondays, Wednesdays and Fridays, at 10 o'clock, A. M., for Sacramento city. The Gold Hunter has excellent accommodations, is entirely new, and was built expressly for the Sacramento river trade. She has two marine engines, and her well known speed will insure dispatch to passengers bound to the mines. Freight to Sacramento city, $2 per 100 lbs; measurement goods, 75 cents per foot. Passage, $25 to and from Sacramento city. For freight or passage apply to the Captain on board cxliv tf



FOR ASTORIA, VICTORIA and Nesqually.—The Pacific Mail Steamship Company's steamer Carolina, David Wood, commander, will be dispatched for the above places immediately after the arrival of the U. S. mail steamer Oregon from Panama.

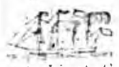
The Carolina will proceed to Portland from Astoria if there is sufficient water in the river to allow of her doing so. For freight or passage apply to

Alfred Robinson, agent P. M. S. C.
cxlii tf foot sacramento st.

STEAMER McKIM. New Arrangement.—The steamer McKim, Capt. Chas J. Brenham, will hereafter leave for Sacramento city, from Clark's point, every Sunday and Thursday morning at 9 o'clk. Passage to Sacramento city $20; freight, heavy goods, $2 per 100 lbs; measurement, 75 cts per foot. Passage and freight engaged through to the various towns on the Sacramento and Feather rivers.

cxxxvi tf Simmons, Hutchinson & co.

BLANK BILLS OF LADING for sale at the office of the Pacific News, by the hundred or single copy lxxv tf

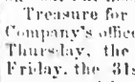


FOR PANAMA.—The Pacific Mail Steamship Company's Steamer Oregon, Lieut. C. P. Patterson, commander, will leave for Panama, making the usual stoppages, on Saturday, June 1, 1850, at 4 P. M. Passengers are requested to be on board at noon of that day.

Treasure for shipment received at the Company's office, foot of sacramento st, on Thursday, the 30th, and until noon of Friday, the 31st inst. The Oregon will connect with the steamer Cherokee, to leave Chagres on arrival of the passengers and treasure.

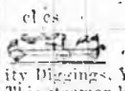
Through tickets, and through bills of lading granted by

Alfred Robinson, Agent,
cl cs foot of Sacramento st.



STEAMER SENATOR—Through to Bute city, Trinity Diggings, Yuba city and Marysville.—This steamer having been put in perfect order will resume her regular trips to Sacramento city this afternoon at 4 P. M., and leave regularly until further notice, on Tuesday, Thursday, and Saturday afternoons, at 4 P. M., from the berth at Clark's point, connecting at Sacramento city with steamers running to the above places. Freight will be received at all times, free of charge, on board bark Janet, and by leaving orders with the undersigned. Lighters will be sent for it at the expense of the steamer. For further particulars apply to

Charles Minturn, Agent,
Broadway Hotel.
San Francisco, May 18. cxlix tf



Steamship GOLD HUNTER. This steamer, under the command of Capt. Charles J. Brenham, will be continued on her present route to Sacramento City till the repairs of the McKim are completed, leaving this place as heretofore, every Monday, Wednesday and Friday, at 10 o'clock, A. M, and Sacramento City every Tuesday, Thursday and Saturday, at 9 o'clock.

Also, for rent, the two upper stories of the brick building known as the Howard Hotel, very suitable for a lodging house and billiard room, will be rented, together with a billiard table, if required, on reasonable terms, to a respectable party.
7 cA

TO LET. A large and beautiful House, situated on Jackson, near Kearny street, with a yard having two entrances. By its situation, this house can be rendered very convenient for any person desirous of engaging in two or three different lines of business. It is very well adapted to the purposes of a market, such as beef market, vegetable market, fish market, &c. The house is also by its locality well adapted for a cafe or restaurant. If the person desirous of leasing the said building should wish to have another story added to the same, the lessor is willing to have it done on terms convenient to the lessee. For further information apply to DeBoom, Vigneaux & Grisar, clay street.
xlii tf

HOUSES For Sale—American built frame houses of the following dimensions: 15x15, 16x18, 15x20, one story high, eight feet stud; some of which are furnished with iron roofs: with partitions, flooring, locks, hinges, glass, &c; timber from 3x6 to 2x4, planed where in sight; and can all be put up at a small expense; also, 6 stoves with funnel, complete, by

A. W. Richardson & co,
cxlii sansome st, near B'way.

LARGE Iron Stores—For sale low, to arrive—one iron store, (wooden frame) 25x80, three stories; one do do (do do) 30x80, three stories; one do do (do do) 30x80, two and a half stories.

The above stores are of excellent workmanship, with large windows, sash doors, hoist wheels, &c., &c. Apply to

cxlii c* Cooke, Baker & co.

WHITE BROTHERS, Importers of ready made clothing, blankets, drillings, tinware, harness and saddlery, of every variety, boots and shoes, miners' implements, carpenters' tools, of superior quality, and other hardware. Also, furniture, musical instruments, plated ware, groceries, provisions, etc., etc. California street, between Kearny and montgomery.

WILLIAM F. WHITE, JOHN E. WHITE,
san Francisco. N. York.
cxxxiii cA*

LOTS in Crescent City—The subscriber has now his office for the sale of the above lots, at the corner of Sansome and Bush streets, where a description of the property can be seen.

Crescent City is beautifully situated at the head of navigation of the Tuolumne river, upon the principal ferry, *en route* to the rich mines of the south, and is the most eligible point for a speculation, either in the way of trade or lots, in the whole southern placeres. The most liberal terms are offered.

cxxxvi cA Alfred Clapp, Agent

NOTICE—Benj. Reynolds can be found in Jackson above Kearny st, until he rebuilds his store on the corner of Jackson and Kearny sts. 7 tf

SPERM OIL—30 bbls pure sperm oil in store and for sale by

Ogden & Haynes,
cxlix cs clay st wharf.

DAILY PACIFIC NEWS.

J. WINCHESTER.....EDITOR.

Wednesday, May 22, 1850.

The "Sober Second Thought!"

The late accounts from the Atlantic States announce that the spring elections have been a continued series of triumphs for the Democratic party. In New England, which has always been the stronghold of the Whigs, the Democrats have carried Connecticut by a large majority, and have laid the foundation for future triumphs in coming contests.

In Rhode Island the Whigs have as usual carried the State; but the vote was small and gave evidence of very little interest being felt in the result.

At the West, the Democracy have recovered all their lost ground, and have made inroads upon what was formerly the acknowledged territory of their adversaries. In New York, the late divisions of the party have been healed; and since, they have defeated their opponents in every contest. The Democracy carried the city of Brooklyn by a handsome majority. For a long time past the Whigs have kept that city by nearly two thousand votes.

This result is not surprising to any one who has observed the course of the party in power during the past year.—Taking the place of an administration which had raised the country to the highest pinnacle of greatness; they were expected at least to enter zealously in the progress of those great measures which would give permanence to the measures which Democratic policy had attained. They gained their power through a casual want of unity among the true friends of correct principles, without committing themselves to any line of polity; and the result has been, that place and emolument have been the main objects of their ambition, instead of guiding the ship of state according to the old constitutional chart. The people have become alarmed, and are again taking things into their own hands; and but a short time must elapse until Democracy will again take the helm and guide us to the good old channel of national honor and prosperity.

ARRIVALS FROM TRINITY RIVER AND PORT TRINIDAD.---By the arrival of the bark Mallory, Capt. Vinnicum, from Port Trinidad, and the schooner Sierra Nevada, from Trinity River, via the same port, we have a number of interesting communications, which we shall publish as fast as we can find room. From Mr. Bidleman, one of the exploring party up the Trinity, who were robbed by the Indians, we have received a detailed account of the country, which we shall embody in a future article. From all the indications, the river is navigable for any boats drawing ten feet of water, *up to the very centre of the mining region*, and from data in our possession, there is no question of this being the real Trinity river. A party of twenty persons are to leave Trinity City this morning for the head of navigation, well provided with supplies, and a swivel six-pounder left with them by Capt. Edwards. The result we are promised at the earliest moment.

PUBLIC DOCUMENTS.—We are indebted to the Hon. William Duer, member of Congress from New York, for a bound volume of the President's Message and accompanying Documents. It is an invaluable present to us, and we return the Hon. gentleman our fullest thanks.

To the Hon. Thomas H. Benton, Hon S. R. Thurston, of Oregon, and Hon Edward Stanley, of N. C., we are also indebted for Congressional favors.

LOWER CALIFORNIA.---We publish today the first number of a series, giving an account of the travels and sufferings of a party of Americans, during a foot journey of *two thousand miles*, through the whole length of Lower California. The writer we have already introduced to our readers, and can promise them that these papers will be well worth their perusal.

☞ We refer the public to the sale of Messrs. Payne & Sherwood, this morning, at the store of Starkey, Janion & co. It is one of the most substantial sales which have taken place for a good while, and dealers and others should not fail to attend.

CORONER'S INQUEST.---Last evening, the Coroner held an inquest on the body of a colored man in Pacific st, by the name of Gray, from New York. The verdict was, Death from causes unknown.

MR. PIPES.—We have another of these unique letters, which are so amusing in matter, and original in orthography; and shall endeavor to find a place for it to-morrow.

The Governor has appointed John H. Gass, Esq, collector of tax from foreign miners in the Sacramento district, in place of Col Baker, resigned.

Charles C. Sackett, and Charles H. Swift, Esqrs, have been elected Associate Justices of the County Court of Sacramento.

WRECKED.—The schooner Eclipse was wrecked in trying to beat out of Humboldt Bay, a few days ago. She is said to be a total loss.

Exploration of Trinity River.

The arrival yesterday of the Sierra Nevada, Captain Edwards, has put us in full possession of the particulars of the explorations made up to the 19th inst., the day on which Capt. Edwards sailed. The Sierra Nevada was three hours from Trinity river to Port Trinidad; from the latter place to this port, *twenty four hours* only.

Mr. William A. Hays, of Long Island, but recently from Mobile, was drowned by the upsetting of a canoe.—This sad accident caused a return of the expedition to the mouth of the river.

The extracts below from the journal kept by one of the party will be read with interest. In addition to the facts there stated, one other, obtained at Port Trinidad by a passenger on the Sierra Nevada, on her downward trip, from a packer just returned from the Trinity mines, fully confirms our position taken yesterday,—namely,—that upon the head waters of this river, the Trinity mines are located. The fact is this:—In coming from the mines, he followed the stream upon which the miners are at work down to the point where the accident occurred,—and states the distance only at one days' journey for pack mules. As the river is *known* now to be navigable for large boats to this place, if no further, it places that whole mining region within one days' travel of large steamers. This fact is worthy of consideration.

MAY 15.—Proceeded up 16 miles, between high and mountainous banks, thickly covered with pine, spruce, redwood, &c.; no low banks were seen, with the exception of a few points made lands subject to overflow at floods. On the side hills we saw some native villages of considerable size. Towards night the oak, sugar maple, and other species of wood made their appearance. The river is swollen, swift, broad, deep and majestic. Scenery beautiful, romantic. General course E N E.

MAY 16.—The same appearance of country as yesterday. After ten miles traveling reached the North Fork, (Blue river) coming from the north; a beautiful deep stream of clear bluish water. The banks exhibiting all the indications of the gold regions east. Made 11 miles.

MAY 17.—Rugged broken country in the forenoon, clothed in shrub-oak; at noon some fine lands, rich green mounds and wild oats. Made 15 miles to a large bar, (Bar Disappointment) 42 miles from the mouth. Here, by the unnecessary crossing of the river to the opposite side, one of the canoes struck a snag near shore, another making for her, struck her and both upset.

By this sad accident one of our party, a Mr. Hays, was drowned, and nearly all the arms, trinkets, and provisions were lost. The Indians being here in large numbers took the advantage of this, and began to steal what was saved in the other boats—farther they did not molest us. From this point the country appears to clear of that formidable underbrush that makes the coast ridge nearly impenetrable. The lofty mountains are bare and red, like those of the Sierra Nevada gold regions, and quartz abounds. The banks rise up to beautiful green mounds covered with wild oats and flowers of all hues; the lofty ridges are spotted with glistening snow, and the whole is delightful but wild.

Seeing these different indications, we prospected some, but on account of the Indians and the high state of the river, did not succeed in finding gold; but the whole party was convinced that they had entered the auriferous regions, and that they were in the vicinity of the forks, formed by the Middle fork or Trinity (of mining fame) and the south fork, crossed or reached by parties from Trinidad and Humboldt bay.

The general course is northwest by west, the river deep and swift, in size equal to the Sacramento, and considered by the party to be navigable far beyond where they were. We shall shortly start a party again and shall send you whatever may be interesting to the public. Gold we have not found as yet, having prospected but little or nothing, but I assure you it is here.

The place or region where we found some gold about 6 weeks ago, by accident, is only 10 miles south of our locations at the mouth of the Trinity, and I am of opinion that this region runs easterly, and cuts the river where our canoes left off exploring, and runs up the middle fork, the only branch where until now digging have been discovered on this side the hills. More anon. Yours respectfully,

Herman Ehrenberg.

RAILROAD IN CHILI.—An Engineer Corps from the United States, lately arrived in Panama on their way to Chili to build the first railroad south of the Equator. Allan Campbell, of New York, is chief engineer, Alexander Campbell and W. W. Evans, resident engineers, William H. Vining, J. H. Shaw and Edward Rolfe, 1st assistants, with a number of artisans and sub-assistants. They left Panama in the British mail steamer of the 27th ultimo, and expect to be engaged two years in building the railroad from Caldera to Copiopo, the centre of the mining district of Chili. The engines are now being made by Norris & Brothers of the United States. The cars, turn-tables, and the whole equipment of the road is ordered in the States. The iron (which is of the most approved pattern of H rail) is being made under the direction of Graham, Kelley & Co., of Liverpool, also the chairs and spike. The road is to be fifty-five miles long, with grades not to exceed fifty feet to the mile.

☞ A Poem by Theodore S. Fay, Esq., is about to make its appearance "Ulric, or The Voices," is the title. A Berlin correspondent of the New York Commercial Advertiser speaks in the highest terms of eulogy in its praise. The scene is laid in Germany at the close of the Middle Ages.

Notes of Travel through Lower California.

NUMBER ONE.

STOCKTON, May 18, 1850.

EDITOR PACIFIC NEWS:—One year ago to-day I was thrown, in a shipwrecked condition, on the shores of Lower California, at Cape San Lucas; whence I travelled, after suffering almost incredible hardships, by land to San Diego, in this State. The journey occupied me eighty-five days, including necessary stoppages.

Your conjecture respecting the possible fate of the long-delayed steamer Chesapeake, with her passengers, who may now be *in extremis*, as I was, has revived in my mind full recollections of that awful journey, and brings *tears to my eyes* as I recall it; and then, think too, of women and children wrecked on *that coast!* The public, no doubt, feel much interest in obtaining information regarding Lower California, and such I will endeavor to supply, regretting that my notes of travel, maps drawn on the spot, and other materials which I could wish, have gone home to friends in the States. In consequence of this, I cannot promise entire accuracy as to names and dates.—A few general remarks further, in speaking of the nature of the country, and the journey as a whole, and I pass to more interesting details.

Cape San Lucas lies a little to the south of Mazatlan, in about lat. 22°,—San Diego lies just north of 32, but much to the west of the former. The journey then runs transversely to the N. N. W., and as the crow flies, is about 1100 miles, or a little less. But our route took us in zigzag lines continually, to enable us to meet the waters in the deep *canones* at the sources of the streams, and must have been somewhat over 2000 miles. So long as memory lasts, I never can forget it; and I would prefer at the present moment, the route to St. Louis, "over the plains," judging from all the information I gather from those who came hither by that route, rather than to be placed where I stood a year ago, and venture again on such an untried journey. But I will proceed to particulars.

We left Mazatlan May 2d, in the small Mexican schooner San Blasena: Capt. Austin, one of our number, kindly volunteering to take the vessel in charge out of the hands of her Mexican commander. The morning of the 7th found us across the gulf and at anchor in the harbor of San Jose, 25 miles within the cape of San Lucas. San Jose has better water than was to be obtained at Mazatlan, and for this we had put in. I may here remark that the well where we obtained water, is seven miles seaward from the town, just inside a point of land, and that the anchorage there for vessels of any size is good. H. B. M.'s frigate ——— dug the well some years since. Good water is to be had at the town, but a heavy surf continually breaks upon the beach; besides, the shallowness of the harbor does not permit large vessels to approach. San Jose is almost the only spot on the whole coast of this most desolate peninsula, at which vessels can stop, or expect to obtain supplies. There, not only good beef, pork and mutton can be obtained, but also, potatoes, sweet and Irish, onions, very large and fine, with other garden vegetables, as well as green corn, melons, squashes, &c., which we found in abundance, and cheap. At Todos Santos, 60 miles above the cape on the N. W. coast, the same are to be found in less quantity, besides its being impossible to come to an anchor, and will nigh go to beach a boat there. The miss on is situated two or three miles distant from the shore.

After taking in water and provisions at San Jose, we set sail (May 9th) for San Francisco. One week was fruitlessly spent in attempting to round the cape, and *beat* to the N. W. against the steady winds,—sometimes amounting to a gale—which, say the inhabitants, always blow dead ahead from that quarter; "*todos los dios, y todos los anos*," are the precise words which the "oldest inhabitant" at Cape San Lucas gave me. He was about 80 years old and had spent the greater part of his life in that spot.—Meantime, provisions and water were fast consuming, and we put back once more into San Jose. On the 17th we resumed our voyage, and on the night of that day encountered a gale of such violence that we never expected to see another. Our craft was tossed, like an egg-shell as she was, all night at the mercy of the angry waves. I had encountered a severe "blow off Hatteras," in the previous February, and a "norther" of no less fury in the Mexican gulf a short time afterwards; but out stout clipper-built brig nobly outrode the storm—And so did the little San Blasena, with her 35 souls on board, survive, but with the loss of nearly every thing above her bulwarks. Ten of us, prompted by duty to self and families at home, which we held dearer than ourselves, secretly resolved during that violent tempest, to leave the vessel, if ever permitted again to reach *terra firma*.—The storm abated somewhat on the return of daylight, and I had the pleasure, almost unspeakably great, of once more setting foot on the solid earth at Cape San Lucas, on the afternoon of the 18th.

C. A. B.

CORONER'S INQUEST.—A coroner's inquest was held upon a body found in the river, along side the ship Orb, on Tuesday last. It was found to be the remains of Geo. Henry Gunn, a native of Oxford, England, who fell overboard about twelve days ago, while ascending the river just above this city in a small boat. On his person was found, affectionately written, letters from his friends, from which it would appear that the deceased was of the first respectability. The Coroner has written to the family of the deceased, giving them the melancholy information of their bereavement. —*Sacramento Transcript.*

LOUISIANA.—An act passed the senate of Louisiana on the 19th ult. and will doubtless become a law, the title of which is as follows:

"An act to provide a block of stone, for the Washington Monument, having the following inscription,—'*The State of Louisiana—ever loyal to the Constitution and the Union.*'"

MARRIAGES OF BRITISH SUBJECTS IN FOREIGN COUNTRIES—*Registration thereof and of Births and Deaths.*—From a late Mobile paper, we extract the following notice to British subjects, emanating from the English Consul at that port. It seems to be general in its provisions, and we copy it for the benefit of those of our readers who may be interested as subjects of Her Majesty:

BRITISH CONSULATE,
Mobile, Feb. 26, 1850.

An act for "facilitating the marriages of British subjects" resident in foreign countries having been passed during the last session of the Imperial Parliament, it becomes the duty of the Consul of Her Britannic Majesty to give public notice thereof, for the benefit of those for whom it is designed.

The act provides for the solemnization of marriage at the Consulate, by the Consul, or, in the presence of the Consul, by some proper person to be allowed by him, according to such form and ceremony as the parties thereto may see fit to adopt.

The act further provides for the registration of such marriages by the Consul, and for the transmission of such registration to the Registrar General in England.

As it is important that the Births and Deaths of British subjects should be recorded at the Consulate, Register Books will henceforth be kept there for the insertion of such entries of Births and Deaths as may be reported for registration.

The registration of marriages, births and deaths in foreign countries, securing as it will do, legitimate evidence of those events, may prove of very material service to British subjects and their kindred.

As affecting their rights in their native land, it is a matter in which their interests are concerned.

W. GIFFARD NICOLAS,
Her Britannic Majesty's Consul.

The Whigs have carried the State election in Rhode Island—the Democrats have succeeded in Connecticut—Messrs. Butler, Clay and Webster, of the Senate, and Messrs. Holmes, Winthrop, and Venable of the H. of R., have delivered eulogies upon the death of Mr. Calhoun—a "blow up" in the Cabinet of President Taylor is shortly expected—George W Crawford, Secretary of the Navy, has been charged with malfeasance in office in regard to the Galphin claim—he has asked for a committee of Congress to investigate the matter—California is not yet admitted as a State, though Col. Benton is actively pressing her claims, separate and apart from all collateral issues—Henry May, a lawyer of some eminence in Washington, was expelled from the bar of the Circuit Court of the U. S. sitting in that city, which caused great excitement—the Whigs of N. York celebrated the birth day of Clay with great spirit—the Democrats of New York have had a union meeting at Tammany Hall in which they agreed to bury the hatchet of intestine division, and unite for the success of the common cause—Mr. Shepard, one of the orators, declared that the Democratic party of New York, and of the Union, have passed through a long and perilous night, but there was no danger that the bark would founder—and Congress was devising every necessary and proper step to adjust the slavery question.

A lawless band of depredators have lately made Chagres their head quarters for plundering and robbing the passengers crossing the Isthmus. These men became so numerous and dangerous, as to excite the serious alarm of the citizens of that place. In this state of things, Captain M. K. Taylor, was fully vested with ample powers to terminate the operations of this gang of free-booters, and with an energy that deserves public gratitude, he succeeded in ridding the place of the desperadoes. Without doubt, if they had not "cut dirt" as soon as they did, he would have made a summary example of the marauding brigands. Some of the gang, we are told, have arrived at Panama—so look out!—*Panama Echo April* 27.

They tell some tough stories about the natives crossing the Isthmus. The latest is to this effect:—A number of kegs of powder were placed upon the backs of the man-mules, with the direction that they should be kept dry; but, unfortunately, a shower of rain overtook them before they got half way across—the powder, of course, was wet by the watery fluid. In this predicament, a fire was kindled, and an attempt made to dry the combustible compound of saltpetre and brimstone; when lo! it ignited, exploded, and went off like a sky-rocket, blowing the darkies into the air, and shivering them into a thousand pieces.—*Panama Echo.*

QUICK DIGESTION—HEALTHY FOOD.—Of all the articles of food, boiled rice is digested in the shortest time—an hour. As it contains eight-tenths nutricious matter, it is a valuable substance for diet. Tripe and pigs' feet are digested almost as rapidly. Apples, if sweet and ripe, are next in order. Venison is digested almost as soon as apples. Roasted potatoes are digested in half the time required by same vegetable boiled, which occupy three hours and a half—more than beef or mutton. Bread occupies three hours and a quarter. Stewed oysters and boiled eggs are digested in three hours and a half—an hour more than is required by the same article raw. Turkey and goose are converted in two hours and a half, and an hour and a half sooner than chicken. Roasted veal, pork, and salted beef, occupy five hours and a half—the longest of all articles of food.—[Scientific American.

NEW HAMPSHIRE ELECTION.—Returns from 202 towns in New Hampshire, of the election for State officers, have been received. They foot up as follows:—Dinsmore, dem., 29,206; Chamberlain, whig, 17,852; Berry, free soil, 6,466. The people have decided in favor of a revision of the constitution by a vote of two to one.

320

ALARM AND THIEF DETECTER.—Two of the most ingenious pieces of machinery we have ever seen, were yesterday submitted to our inspection, in one of the apartments of the late Benjamin Storey's residence, Lafayette Square, now occupied as offices of the U.S. Quartermasters' and Pay Departments. They consist of an alarm and thief detecter. The former is so constructed as, on being opened, to produce a tremendous noise, similar to the screeching of a gas-escape of a locomotive. This is followed by the descent through a tube of a quantity of sonorous balls, (marble or brass, as may be chosen,) which are at length thrown successively from the hopper to the floor, rattling with terrific force. In the midst of the confusion of sounds produced by the falling balls, a bell begins to toll, and so loud as positively to startle even a person who is prepared to encounter the alarm. The machinery which puts in operation the alarm, occupies but a small space, and can be put inside money safes, armories, or other pieces of furniture in which valuables are preserved. The noise created by it extends to a great distance, and would effectually scare a thief to a precipitate flight. The thief detecter is a simpler and more portable piece of machinery, designed to be placed inside doors or windows of stores, or dwelling houses, as a protection against depredators. It consists of a double grating which is suspended within a double groove in the upper part of the door or window frame, and connected by a spring with the floor beneath. Immediately the foot of the robber presses on the floor inside the threshold, the spring is put in action, when down falls the grating, and the intruder is caught like a rat in a trap. These inventions are by Mr. Nichols, of the U.S. Pay Department, who politely explained to us their *modus operandi*. They prove him to be endowed with rare ingenuity in mechanics, and we are convinced that they need only to be known to be immediately applied to the purposes for which they were designed. With these simple pieces of machinery in a store, shop or dwelling-house, the proprietor might sleep in all security against the adroit thief or the daring robber. We advise our brokers, mercantile men, bank directors, and citizens generally, to call at the Quartermaster's office, Lafayette Square, and examine these invaluable inventions. They can be manufactured and fixed ready for action at a small expense—not more, we are informed by Mr. Nichols, than $70. Col Hunt and others who take an interest in the welfare of the inventor, have advised him to take out patents for them forthwith.—*N. O. Picayune.*

SACRAMENTO CITY ELECTION.—The election passed off day before yesterday, very quietly. Two Justices of the Peace and one Constable were elected in each district. The following are the returns for the city proper:

For Justices of the Peace—First District.—Charles C. Sackett 482, George S Fake 424, Joseph Grant 374, James M. Coggin 335, John Hatch 299, Dr. Bumstead 3, scattering 2.

Second District.—D. D Bullock 261, Charles Swift 211, John C. Boon 138, F. S. Wilcox 75.

For Constable—First District.—John A. Lutt 381, Jas McClatchy 261, Thomas W. McCalla 241, Henry S. Beadle 92, Joseph O. Derby 79, scattering 6.

Second District—Ira T. Smith 228, David Brugh 99, D. Bennett Hoffman 53.

Thus, the officers elected, are Charles C. Sackett and George S. Fake, of the First District, D D. Bullock and Charles Swift, of the Second District, Justices of the Peace; and John A Tutt, of the First District, and Ira T. Smith, of the Second District, Constables.—[Transcript, 18th.

"WOODMAN SPARE THAT TREE."—At Sacramento City, the people are up in arms because of the wanton destruction of the trees which have heretofore been respected both for shade and ornament. The Transcript says:

The indignation among our citizens was general, and not to be mistaken; but it had no effect, until several of our noblest trees were laid low, and others so injured, that they must soon die and become objects of deformity, instead of ornaments to our streets. To be sure, the act was not a crime, but the least that can be said of it, is, that it was a needless and thoughtless violation of the rights, and an outrage upon the feelings of our citizens at large. It is proper to state, in this connection, that Mr. Ormsby was to use the trees for the purpose of repairing K street, and rendering it passable. But he cannot be justified if, as we understand, he felled the trees not only without authority, but in direct violation to positive orders from the municipal officers.

THE SUB MARINE TELEGRAPH.—The Paris Presse devotes more than two columns to the details connected with the project of a sub-marine electric telegraph between France and England, for which Mr. Brett has obtained a privilege of ten years from the French government. It appears from this account that the contract binds Mr. Brett to have his telegraph completed by the first of September next, but the French government reserves to itself the right of stopping the works before the first of September, in the event of circumstances occurring to render this measure indispensable. A joint stock company, under the name of Brett, Toche & Co., the seat of which is to be Paris, has been formed with a capital of 750.000*f*., but Mr. Brett undertakes to complete the telegraph across the channel for 459.000*f*. The two points fixed upon are Cape Grisnez, and the Shakspeare Cliff, near Dover. The distance between these points is only 18 miles English, but the line of telegraph, consisting of seven wires, properly covered, is to be 23 miles, to allow of oscillation.

An effort is making by the Government of New Grenada to compel citizens of the United States, crossing the Isthmus, to pay $3 for passports.

Auction Sales.

PLUMAS CITY.

THIS flourishing town needs no puffing, for there can scarcely be one having been in California one month who is ignorant of the important stand Plumas is to take among her sister townships. Being located so immediately in the midst of the rich mines of Bear river. Dry creek, Rough and Ready, Gold river, Yuba and Deer creek. The rich diggings of the Bear river, just discovered, are within fourteen miles. To all these mines the roads are remarkably level, being over prairie land. The finest red brick clay is there in abundance, and timber to last for ages. Is situated on high land and beyond the possibility of overflow. Ninety-nine of the hundred who cross the plains this year will pass by Truckee river, and pass directly through Johnson's Rancho and Plumas City, where the richest soil and finest gazing land in the world is found. There is every inducement for traders to visit this town for the reason above named, and trade has taken an active start there, and already, although but five weeks since the first building was erected, there now are some twenty large frame buildings finished or nearly so, and occupied for merchandising, hotel, &c., as also as many tent houses.

For the information of those just arriving in the country, the subscribers would state that Plumas City is situated on the east banks of the Feather river, about two and a half miles below Hock Farm, but on the opposite side, and seven miles above Bear river. All the steamers of light draught can run to this point the year round, and without doubt must prove the head of steam navigation through the summer and fall months. In the winter and spring, sail vessels drawing ten to twelve feet water, have no difficulty in navigating as high up the river as Plumas, when close along the banks in front of the town all winter could be found 16 to 22 feet of water. There are already over two hundred persons interested in this town, and increasing daily. Teams and horses are in readiness always to convey miners and their goods into the interior, at the lowest rates. The subscribers have erected their storehouses, and are storing miners trunks and chests for 50 cents per month.

The proprietors are not anxious to sell to speculators, but to actual settlers, who will find liberal inducement.

G. H. Beach,
San Francisco, May 22. cli

John C. Hays, sheriff,
cxlv 2tawts] by B. F. Harley, dep'ty sh'ff.

NEW DAILY Evening Paper in san Francisco—ROBERT D. FOY proposes to establish a daily newspaper in the city of san Francisco, to be issued every afternoon. The design of the paper will be to afford a reliable medium of information on all subjects of general and local interest: also to give full and accurate commercial and shipping intelligence up to the hour of publication each day. In a commercial community like ours, the utility of an evening paper, that will place the transactions of the day before the public immediately, must be apparent.

While the principal aim will be to give to the patrons of the proposed paper all the advantages of a strictly business publication, it should be understood that on questions of a political character, it will always be found a decided advocate of the principles and measures of the great democratic party of the Union.

The first number will appear on or about the first day of June next.

TERMS—$25 per annum, when delivered to city subscribers at their residences, or $20 when mailed—payable in advance. Advertisements inserted at the usual rates. cxl tf

FIRE PROOF SAFES—Simmons, Hutchinson & co, agents; Edwards, Holman & co, the manufacturers; offer for sale an assortment of their fire-proof safes and chests, just landed, among which is one with double door, and suitable for a banker or for public Recorder.

The following is one of many certificates in our possession.

BOSTON, March 13, 1848.

Messrs. Edwards, Holman & co:

Gentlemen—Having been located in the block on Washington street where the great fire occurred on Friday night last, and being made sufferers by the event, we have the satisfaction to find that the contents of our safe, which is one of your manufacture, have not only been preserved, but are *entirely uninjured*.

It is our pleasure, therefore, to recommend your "Improved Salamander Safes" to the notice of the public, as being *unquestionably* "safe;" the fact of which we have fully tested. Respectfully yours,
cxlviii tf John Earle, jr. & co.

NEW STORE *on Sansome street*. The subscribers having purchased and made alterations in the building formerly occupied by Mr. Wissell as a hotel, are now prepared to supply the wants of their customers more fully than can be done at any other store in this city. We are constantly receiving from the States and intend to keep at all times on hand, a full assortment of clothing, furnishing goods, boots and shoes, hats and caps, fancy goods, guns and pistols, powder, shot and caps, blankets, mining tools, trunks, carpet bags, &c. &c., and shall endeavor to live up to our old motto of "*large sales and small profits.*"

Persons going to the mines will find this the most convenient place to get their supplies, as it is near the landing, and every thing they require can be bought here at the lowest prices.

SIMMONS, LILLY & CO.,

AN ACT

FOR THE BETTER REGULATION OF THE MINES AND THE GOVERNMENT OF FOREIGN MINERS.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

Sec. 1. No person who is not a native or naturalized citizen of the United States, or who may not have become a citizen under the treaty of Guadaloupe Hidalgo, (all native California Indians excepted,) shall be permitted to mine in any part of this State, without having first obtained a license so to do according to the provisions of this Act.

Sec. 2. The Governor shall appoint a Collector of licenses to foreign miners for each of the mining counties, and for the county of San Francisco, who, before entering upon the duties of his office, shall take the oath required by the Constitution, and shall give his bond to the State with at least two good and sufficient sureties, conditioned for the faithful performance of his official duties, which bond shall be approved by the Governor and filed in the office of the Secretary of State.

Sec. 3. Each Collector of licenses to foreign miners shall be commissioned by the Governor.

Sec. 4. It shall be the duty of the Comptroller to cause to be printed or engraved a sufficient number of licenses, which shall be numbered consecutively, and shall be in form following, to wit:

"Number , (Date.) A. B., a citizen of , age years, complexion , is hereby licensed to work in the mines of California for the period of thirty days."

The Comptroller shall countersign each of such licenses, and shall transfer them to the Treasurer, keeping an account of the number so transferred.

Sec 5. The Treasurer shall sign and deliver to each Collector of licenses to foreign miners so many of the licenses mentioned in the preceding section as he shall deem proper, and shall take his receipt for the same and charge him therewith. Such Collector and his sureties shall be liable upon his bond for the number so furnished him, either for their return or the amount for which they may be sold; and the moneys collected, as herein provided, shall be paid into the treasury as prescribed in this Act.

Sec. 6. Every person required by the first section of this Act to obtain a license to mine, shall apply to the Collector of licenses to foreign miners and take out a license to mine, for which he shall pay the sum of twenty dollars per month; and such foreigners may from time to time take out a new license, at the same rate per month, until the Governor shall issue his proclamation announcing the passage of a law by Congess, regulating the mines of precious metals in this State.

Sec. 7. If any such foreigner or foreigners shall refuse or neglect to take out such license by the second Monday of May next, it shall be the duty of the Collector of licenses to foreign miners of the county in which such foreigner or foreigners shall be, to furnish his or their names to the Sheriff of the county, or to any Deputy Sheriff, whose duty it shall be to summon a *posse* of American citizens, and, if necessary, forcibly prevent him or them from continuing such mining operations.

Sec. 8. Should such foreigner or foreigners, after having been stopped by a Sheriff or Deputy Sheriff from mining in one place, seek a new location and continue such mining operations, it shall be deemed a misdemeanor, for which such offender or offenders shall be arrested as for a misdemeanor, and he or they shall be imprisoned for a term not exceeding three months, and fined not more than one thousand dollars.

Sec. 9 Any foreigner who may obtain a license in conformity with the provisions of this Act, shall be allowed to work the mines anywhere in this State, under the same regulations as citizens of the United States.

Sec. 10. It shall be the duty of each Collector of licenses to foreign miners to keep a full and complete register of the names and description of all foreigners taking out licenses, and a synopsis of all such licenses, to be returned to the Treasurer.

Sec. 11. Each license, when sold, shall be endorsed by the Collector selling or issuing the same, and shall be in no case transferable; and the Collector may retain out of the money received for each license, the sum of three dollars, which shall be the full amount of his compensation.

Sec. 12. Each Collector of licenses to foreign miners shall, once in every two months, and oftener, if called upon by the Treasurer, proceed to the seat of government, settle with the Treasurer, pay over to that officer all moneys collected from foreigners not before paid over, and account with him for the unsold licenses remaining in his hands.

Sec. 13 If any Collector shall neglect or refuse to perform his duty as herein provided, it shall be the duty of the Comptroller, upon receiving a notice thereof from the Treasurer, to give information thereof to the District Attorney in whose district said officer may have been appointed, who shall bring an action against such Collector and his sureties upon his bond, before any court of competent jurisdiction; and upon recovery had thereon, the said District Attorney shall receive for his services ten per cent. upon the amount collected, the balance to be paid by him into the treasury in the manner provided by law for like payments.

Sec. 14. It shall be the duty of the Governor, so soon as he shall have been officially informed of the passage of a law by the United States Congress, assuming the control of the mines of the State, to issue his proclamation, requiring all Collectors of licenses to foreign miners to stop the issuing of licenses.

Sec. 15. It shall be the duty of the Governor of State, immediately after the passage of this Act, to have two thousand copies each, in English and Spanish, printed and sent to the mining districts for circulation among the miners, and also to have the same published for thirty days in the Pacific News at san Francisco, and in some newspaper at Sacramento City and at Stockton. JOHN BIGLER,
Speaker of the Assembly
JOHN McDOUGAL,
Lieut. Governor and President of the Senate.

Approved, April 13, 1850.
PETER H. BURNETT.

Office of Secretary of State,
SAN JOSE, April 13, 1850.

I hereby certify that the foregoing is a true copy of an original Act, now on file in this office. W. VAN VOORHIES,
Secretary of State.

Sacramento Transcript and Stockton Times copy once a week for thirty days, and send all papers containing the same to Secretary of State, San Jose.

AN ACT

TO PREVENT THE IMPORTATION OF CONVICTS INTO THIS STATE.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

Sec. 1. No captain or master of any vessel, or any other person or persons shall knowingly or willingly import, bring or send, or cause or procure to be imported, brought or sent, or be aiding or assisting therein, into this State, by land or water, any felon, convict or person under sentence of death or transportation, or any other legal disability incurred by a criminal prosecution, except for treason, or who shall be delivered or sent to him from any prison or place of confinement in any place without this State.

Sec. 2. Every person who shall offend against any of the provisions of the preceding section, shall be deemed guilty of a misdemeanor, and on conviction thereof, shall be punished by imprisonment in the county jail, for a term not less than three months, and shall forfeit and pay moreover the sum of one thousand dollars for each of such convicts so imported, brought or sent into this State; one half of which penalty shall go to him or her who shall sue or prosecute for the same, and the other half to the county in which such prosecution shall be had.

Sec. 3. This act to take effect and be in force from and after thirty days' publication of the same in the "Pacific News."

JOHN BIGLER,
Speaker of the House of Assembly.
JOHN McDOUGALL,
President of the Senate.

Approved, April 11th, 1850.
cxlvii us PETER H. BURNETT.

EMPIRE CITY.

FOR Sonorian Camp, Wood's Diggings, Sullivan's, Hawkins's and Don Pedro's Bars, head waters of Tuolumne, Mercedes, and Mariposa Rivers; also, to head waters of san Joaquin and King's River. FREIGHT OR PASSAGE TO EMPIRE CITY, TUOLUMNE. DURFEE & TOWNSEND have established a daily line of sailing vessels from san Francisco to the above city, situated on the south-easterly bank of the Tuolumne river, thirty-five miles above its mouth, and are prepared to carry freight or passengers.

This route is the only one which can be really said to extend, by water, to the very gold field. The city stands at the head of navigation on the Tuolumne river, where the low hills of the Sierra Nevada meet the plains of the san Joaquin, and is not only accessable by sufficient water at all seasons of the year, but the roads to the mines, from that point, are good in wet or dry weather. Goods shipped to Empire City, Tuolumne, save from 25 to 60 miles of land carriage over any other depot for that gold region, avoiding soft roads, expensive ferriage, and personal discomfort.

Persons shipping goods, or taking passage, may rely upon promptness in dispatch, speed in transit, and great saving in time and expense.

For freight or passage, apply to messrs. Turner, Fish & co., foot of Jackson street, san Francisco, or to the subscribers, Empire City, Tuolumne. April 29, 1850.
cxxxii tf Durfee & Townsend.

EMPIRE AND CRESCENT CITIES.

THE survey of this town being completed at the head of navigation on the Tuolumne river, and numerous lots sold and houses erected, designed originally to bear the name of Crescent city, the subscribers, owners of lots in said town, learning that a plot of ground on the northwesterly bank of said river, two miles below, surveyed and laid out last year, still insists upon its rights and advantages as a place for a city, have concluded to leave to the town plot alluded to the beautiful name of Crescent city, and adopt one quite as appropriate, if not so beautiful.—Henceforth, therefore, we claim the name of Empire city. The map will be deposited in the proper offices, and the change in name noted.

Empire city stands on the southeasterly bank of the Tuolumne river, and is the only point accessible by water at all seasons, immediately contiguous to the gold fields of Tuolumne, Merced, Mariposa and San Joaquin rivers. It is at the head of navigation on the Tuolumne river, 35 miles from its mouth. Those persons wishing a settlement in the country are desired to visit it, and examine its advantages over any of its competitors. Signed—Philo Durfee, Edwin D. Townsend, Wm. J. Marcy, W. H. Willson, Joseph E. Miller, Wm. M Rowlett, Thomas J. L. Smiley, David Turner, Edward S. Townsend, Edward Conway, Henry E Perrine, J. B. Lattimer.

TO THE PUBLIC.

SEMI-WEEKLY PAPER AT MARYSVILLE.

THE UNDERSIGNED is about to establish a semi-weekly newspaper at the town of Marysville, under the title of the MARYSVILLE HERALD. In politics its position will be independent. Bound to none, it will lend what influence it may have to all such measures as the necessities of the State may demand, without regard to their origin. It will aim to be a medium of correct information from the Northern mines, in the very heart of which it is to be published; while, as an instrument by which men of business in San Francisco and Sacramento city, can make themselves known to their REAL customers, it will have no superior in California, for its circulation will be confined almost wholly to the miners, upon whom the merchants and dealers must to a large extent rely for their success. For the miners, who are unabe to obtain papers from the Atlantic States, full abstracts of all important sayings, and doings at home will be given, together with whatever else occasion and fitness may demand. It is proposed to issue the first number on or about the first of June.

STATE MARINE HOSPITAL.

THE Commissioners of Health for the port of San Francisco, have taken the building on stockton street, lately known and occupied as the American Hotel, and have converted the same into a State Marine Hospital.

The public are informed that the hospital is now open for the reception of patients.

The public authorities of the city of san Francisco, who have charge of the city poor, citizens, and all persons not entitled to hospital privileges, are also informed that patients will be admitted at this hospital for the moderate sum of $2 75 cents per day, including board, lodging, and medical attendance.

For admission, apply at the Hospital, to the Resident Physician.

Lorenzo Hubbard, M. D.
Resident Physician.

N. B. No patient laboring under an infectious or contagious disease will be treated at this Hospital, but will be provided for elsewhere. cxli uA
